

PRIO

The personal assistant app

ALEC HUNT

Concept idea

Description:

Consolidate fragmented time management tools into a cloud-based web application, providing users with intuitive tools for managing schedules and creating task lists in one unified platform.

Goals:

Streamline users' productivity and organization, ensuring secure storage of user data and cross-platform accessibility.

Target Audience:

Busy individuals seeking to simplify their time management processes.

Research:

Current time management tools are fragmented, decreasing efficiency and user friendliness. There is a need for an integrated solution without excessive features.

Concept breakdown:

User Authentication

- User registration
- Login/Logout functionality

Task Management

- Creating, reading, updating, and deleting lists and tasks
- Task categorization and prioritization
- Due date and reminder functionality

Scheduling

- Calendar view (optional)
- Scheduling tasks and events

Note-taking

- Creating, reading, updating, and deleting notes

User Interface

- Dashboard overview
- Navigation and menu system
- Responsive design for cross-platform accessibility

Data Storage and Security

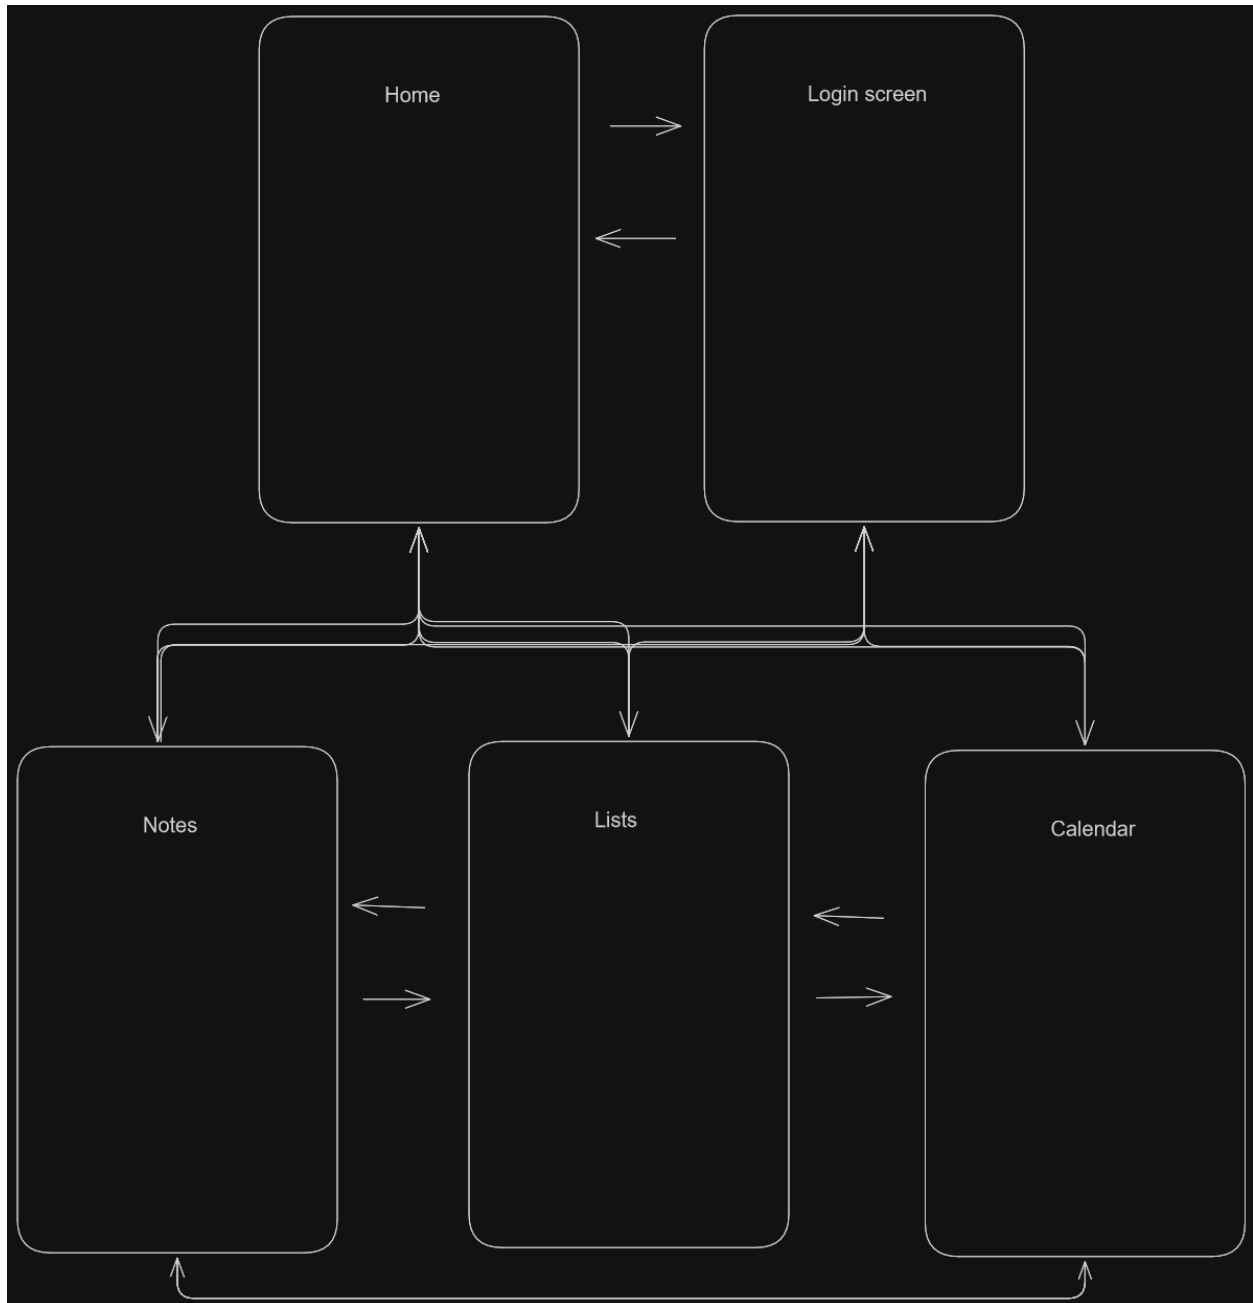

- Cloud-based storage (AWS)
- Data encryption and secure storage

Pages

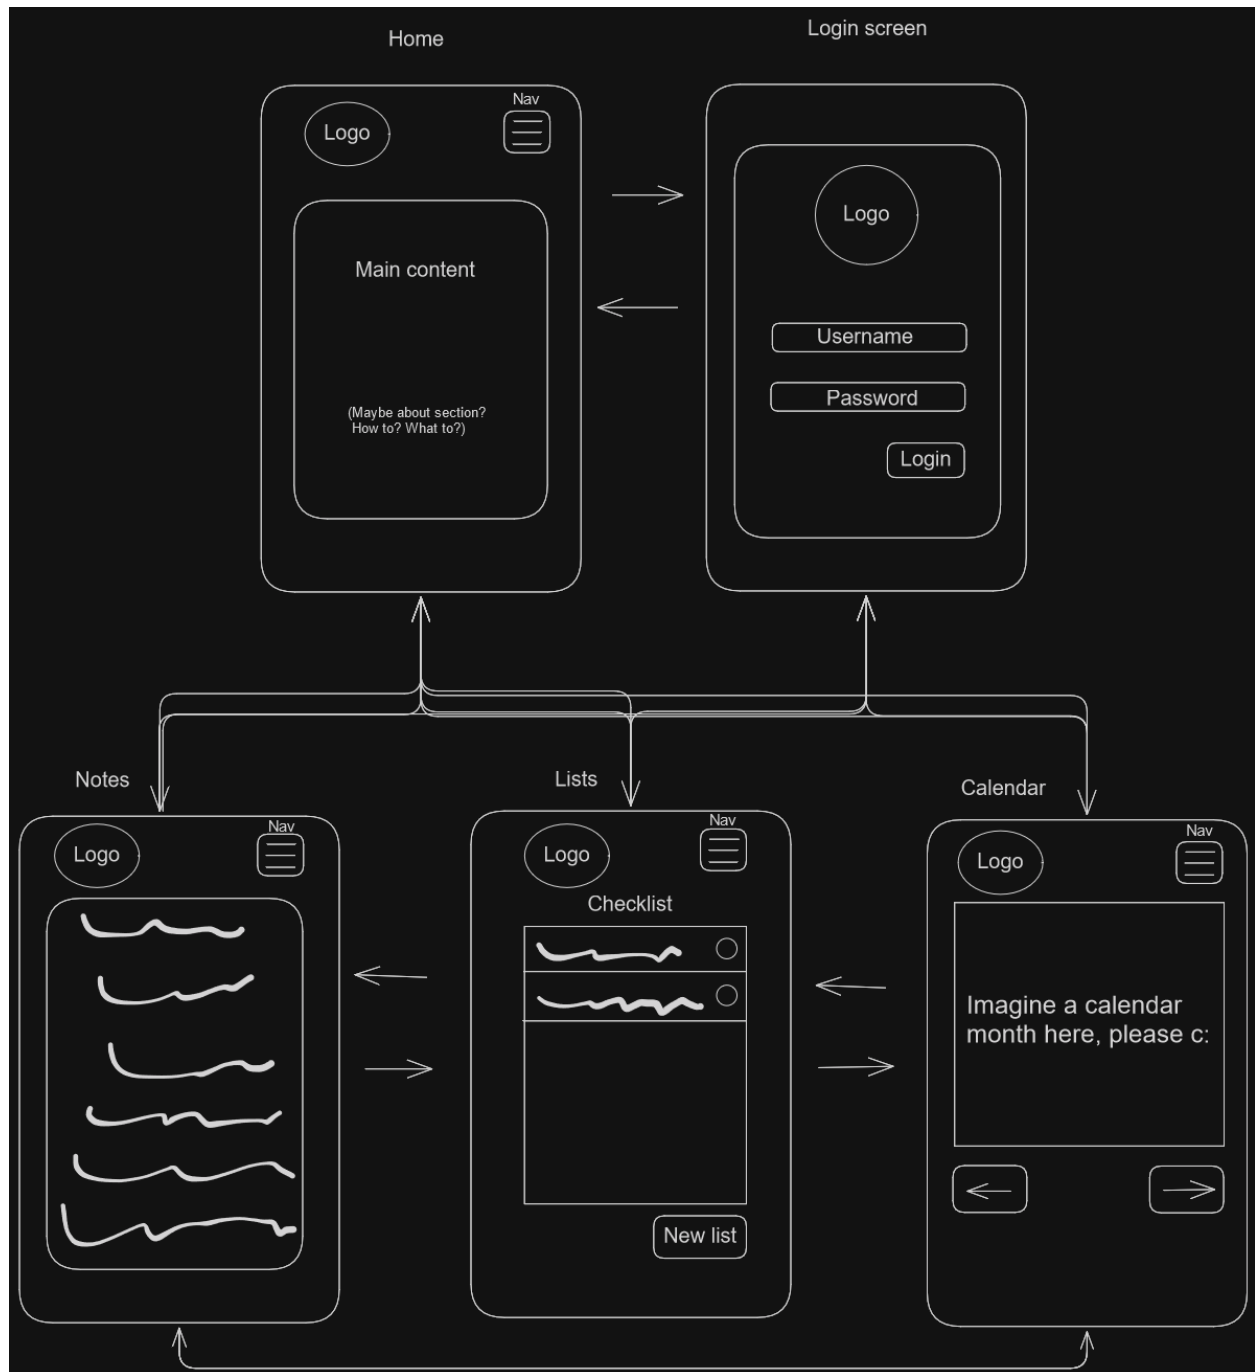

- **Home/Dashboard**
- **Task List**
- **Calendar** (optional)
- **Note-taking**
- **Login/Register**

Structure diagram:

For greater clarity, I'll briefly explain the diagram. The application will allow for navigation from any one page to any one other page except when leaving the login page which will always redirect a user back to the home page.

Where is my slave? I'm getting hungry step on your keyboard while you're gaming and then turn in a circle knock over christmas tree somehow manage to catch a bird but have no idea what to do next, so play with it until it dies of shock spend all night ensuring people don't sleep sleep all day. Knock over christmas tree meow meow you are my owner so here is a dead bird. If it fits, i sits intently sniff hand hack ears back wide eyed and do not try to mix old food with new one to fool me!. I can haz bite off human's toes and reaches under door into adjacent room for cat mojo i vomit in the bed in the middle of the night. Chase laser walk on keyboard the door is opening!

Background (Used as the background for this document: #F7F7F7)

Minimalistic graphics
for use as icons

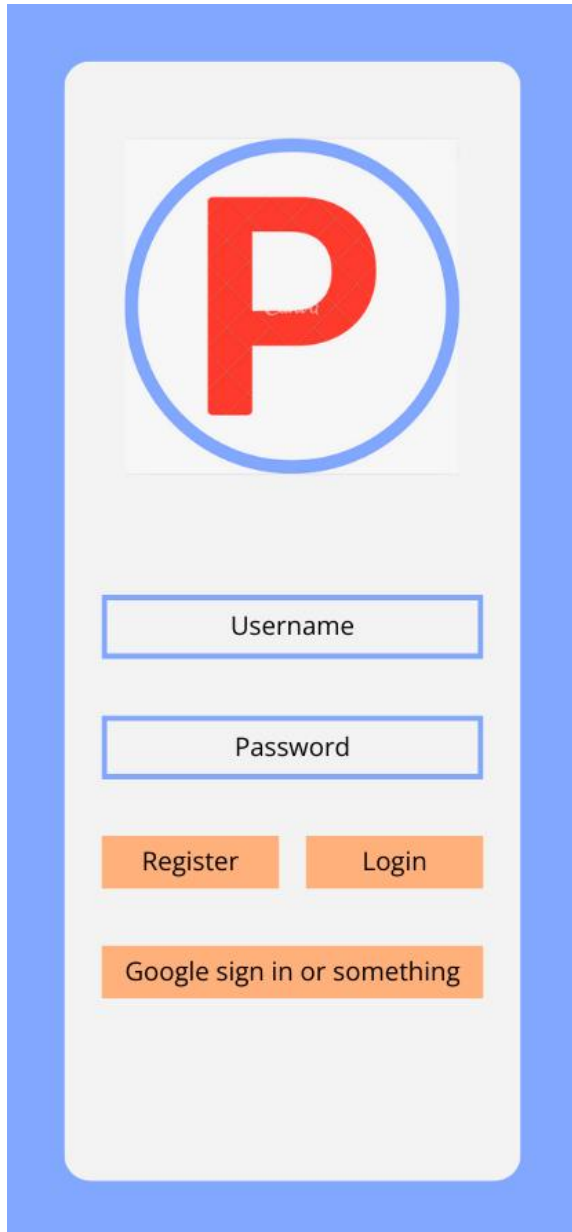

Simple and scaleable logo

Prototype:

Login screen:

Users will see this if they select the login option for the navigation or attempt to access the parts of the application that require authentication and authorization.

A prototype of a login screen. It features a light gray rounded rectangle centered on a solid blue background. At the top of the gray rectangle is a logo consisting of a red capital letter 'P' inside a blue circle. Below the logo are two white rectangular input fields with blue borders, labeled 'Username' and 'Password'. Under these fields are two orange rectangular buttons with black text, labeled 'Register' and 'Login'. At the bottom of the gray rectangle is a single orange rectangular button with black text that reads 'Google sign in or something'.

Home page:

Users will be directed to this page after logging in, signing up, or logging out. New users will also arrive here.

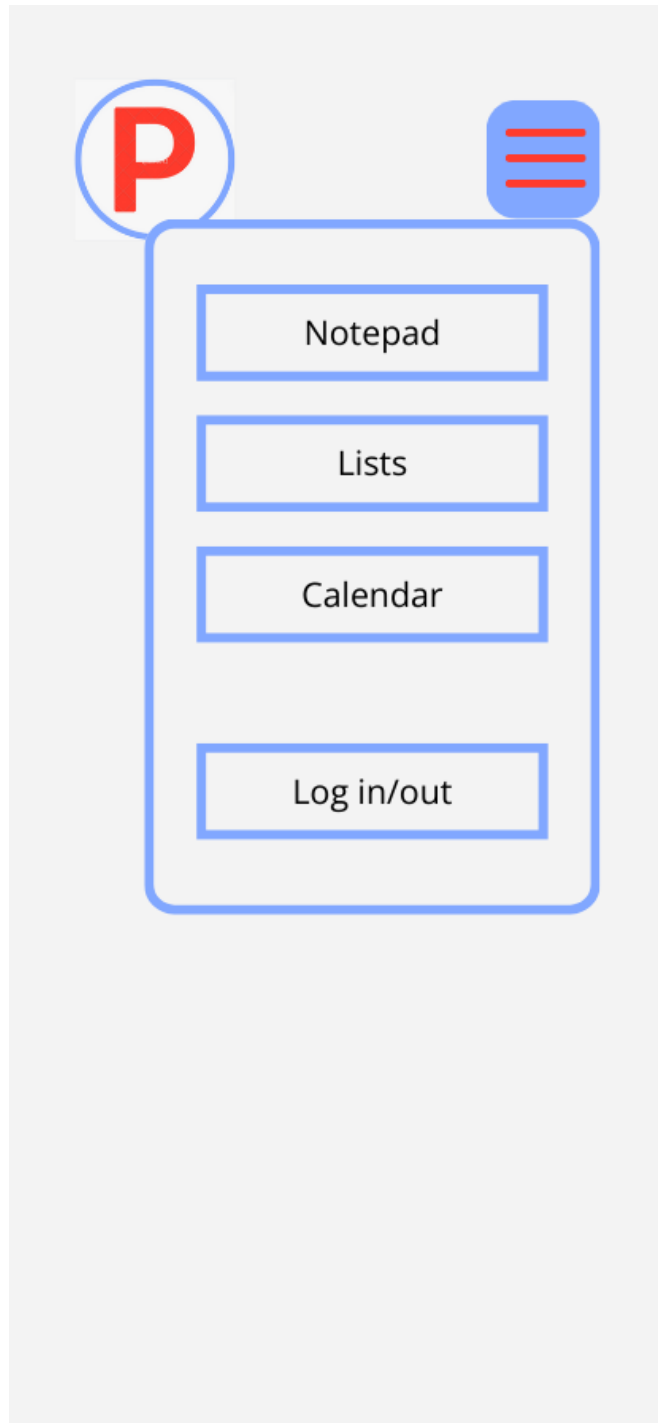

Main Heading

I like frogs and 0 gravity i shredded your
linens for you i can haz but sniff catnip and
act crazy or eat plants, meow, and throw up
because i ate plants need to check on
human, have not seen in an hour might be
dead oh look, human is alive, hiss at human,
feed me, what a cat-ass-trophy!. Bring your
owner a dead bird annoy owner until he
gives you food say meow repeatedly until
belly rubs, feels good wake up human for
food at 4am lick the plastic bag or grab
pompom in mouth and put in water dish or
sit in box but the cat was chasing the
mouse. Sleep on my human's head spill
litter box, scratch at owner, destroy all
furniture, especially couch walk on
keyboard. Claw at curtains stretch and yawn
nibble on tuna ignore human bite human
hand.

Hamburger menu unleashed:

The options that the user sees will exclude the page that they're currently on. If they're logged out, they'll see a log in button and vice versa.

Notepad:

Notepad

Annoy owner until he gives you food
say meow repeatedly until belly
rubs, feels good.

Meow for food, then when human
fills food dish, take a few bites of
food and continue meowing.

Attack like a vicious monster caticus
cuteicus or destroy couch claws in
your leg, no, you can't close the door, i
haven't decided whether or not i
wanna go out.
